

The Obamacare Hub - Transfer of Data and Dollars

“the largest consolidation of personal data in the history of the republic.” *USA Today*

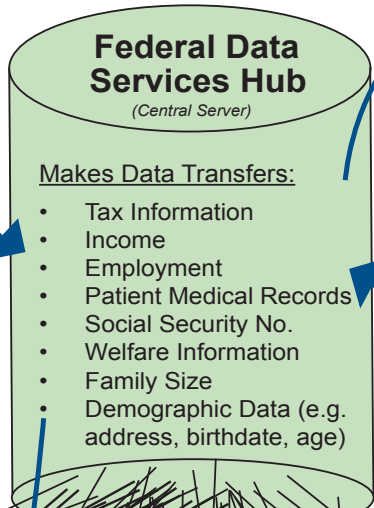

Step 1

Person or employer enters private data into Exchange (government web portal).

Step 2

State's website portal sends entered data to **Federal Data Services Hub** and other state data sources (Medicaid, Revenue, Health, etc.) and requests data from state data sources and the Hub.

Step 3

To transfer and validate person's or employer's data, the Hub connects with the federal government and then transfers data back to the state Exchange.

Step 4

The Exchange (website portal), using data from state sources and the Hub, approves or does not approve individual or Employer for coverage, including access to premium subsidies.

Step 5

For individuals eligible for taxpayer-funded federal premium subsidies or Medicaid, the U.S. Department of Treasury will transfer the funds directly to the health plan chosen by the individual. NOTE: If health plans are overpaid due to inaccurate estimates of income or employment status, the IRS will seek repayment from the individual in what is known as a “clawback.”

FEDERAL GOVERNMENT

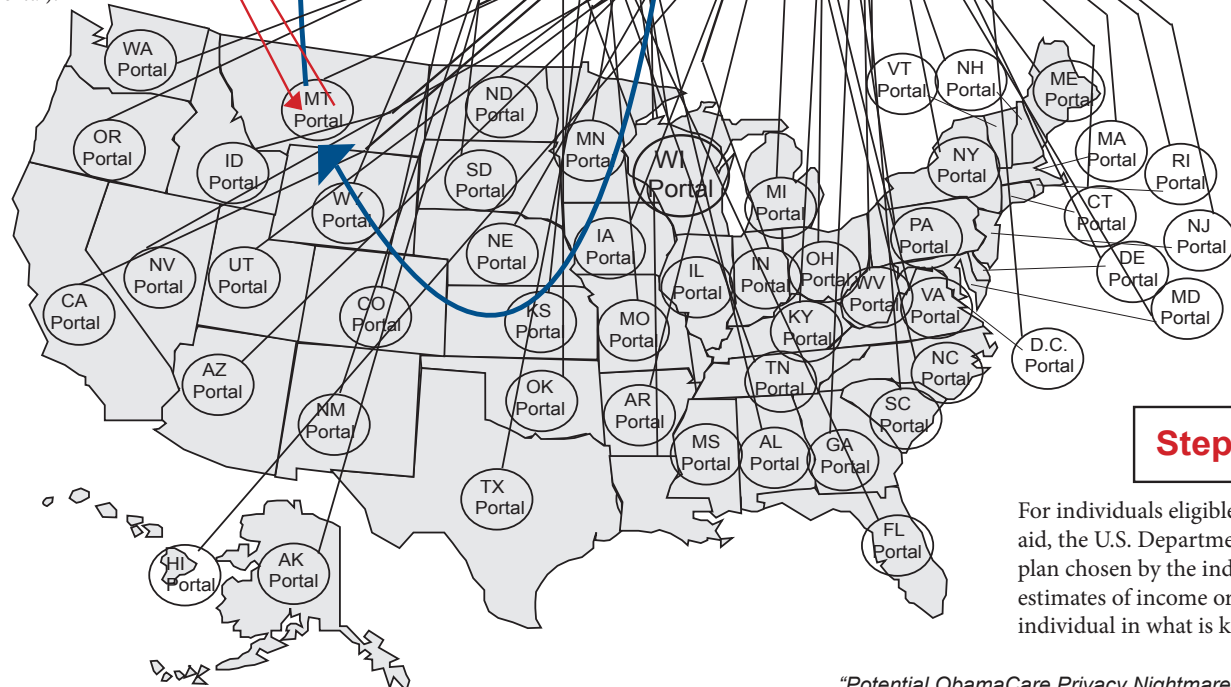

Dept. of Justice
Checks Imprisonment Status and Criminal History

Social Security Admin.
• Validates Social Security Number
• Validates Birth
• Validates the person has not died

Dept. of Homeland Security
• Checks Citizenship Status

Health & Human Services
• Checks Enrollment or Eligibility for Entitlement Programs
• Collects/analyzes medical data

IRS and Treasury Dept.
• Verifies Employment Status
• Individual Income Status
• Determines Premium Subsidies
